BRAND OVERVIEW

Everyday shopping, made calm and certain.

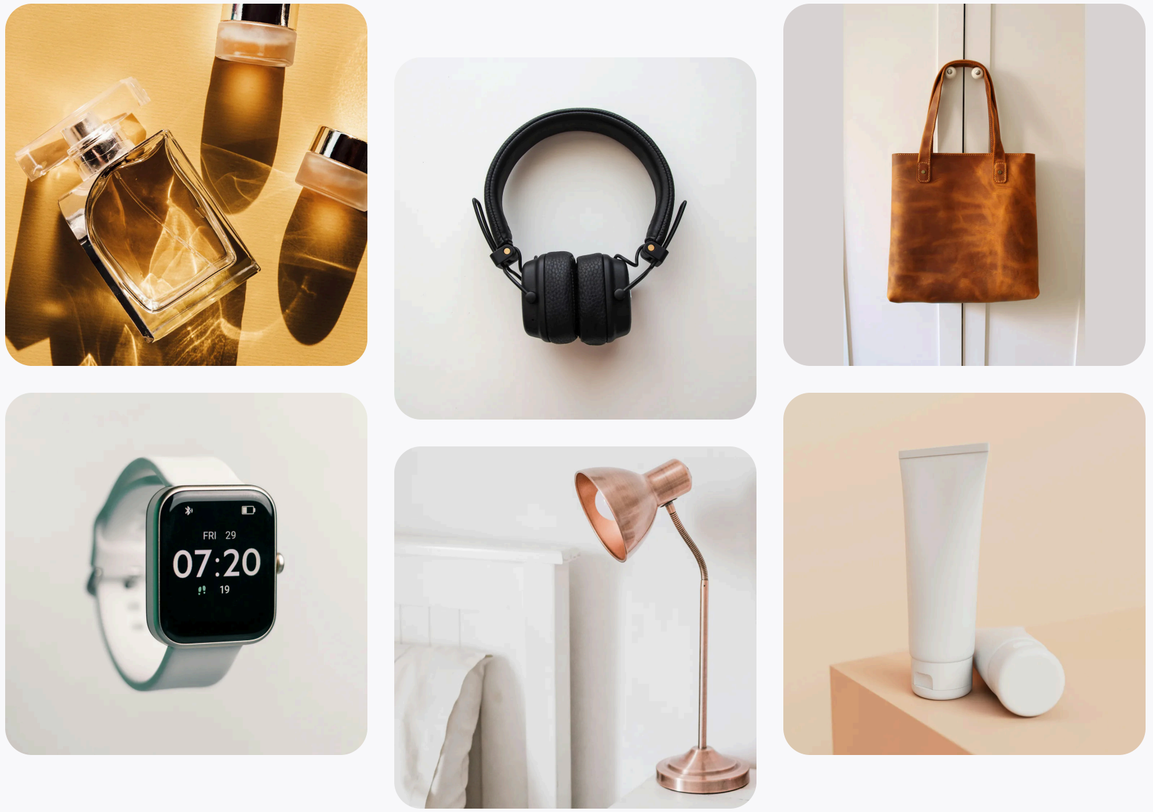

Mirza Cart is a single-store online shop for Pakistan. It sells a curated range of electronics, fashion, home and beauty products, delivers nationwide and lets every customer pay in cash when the parcel arrives. No account is needed to order.

SHORT DESCRIPTION

Electronics, fashion, home and beauty, delivered across Pakistan. Pay in cash when your order arrives.

VISUAL DIRECTION

Clean, neutral surfaces so product photography reads true; one confident violet for every action; a deep aubergine for depth; a single modern sans-serif; soft 16 to 24 px corners; hairlines instead of heavy borders.

Real catalogue photography from the storefront.

POSITIONING

For shoppers across Pakistan who want good everyday products without risk, Mirza Cart is the online store where you order in a minute and pay only when it arrives.

Single store · Curated catalogue · Cash on Delivery · Nationwide delivery

1

Cash on delivery

Pay the courier in cash when the parcel arrives. No card needed.

2

Delivery across Pakistan

Rs. 200 delivery, free on orders of Rs. 1,500 or more.

3

No account needed

Order with your name, phone number and address. Track it with your order number.

The three promises shown in the storefront footer and order steps.

PERSONALITY

Clear — Prices, delivery cost and stock are visible before you tap anything.

Trustworthy — Cash on delivery, no account, honest discounts. Nothing hidden.

Modern — A clean, photo-first interface with generous space and one accent colour.

Warm — Plain, friendly words. The store talks like a helpful shopkeeper, not a bank.

VOICE, IN THE STORE'S OWN WORDS

"Order now, pay when it arrives"

"No account needed: just your name, phone number and address."

"Pay the courier when your parcel arrives."

PRIMARY LOGO

The Mirza Cart lockup

An abstract shopping cart (a filled, forward-leaning basket, a short handle, two wheels) on a violet tile, beside the name in Plus Jakarta Sans: "Mirza" heavy, "Cart" medium.

LOGO USAGE

Space, size and backgrounds

CLEAR SPACE

½ × mark

Keep a margin of at least half the mark's height on every side. Nothing else (text, photos, edges) enters it.

MINIMUM SIZE

Mirza Cart

Lockup: 28 px mark
(the storefront header uses 32 px)

Mark alone: 16 px
(the favicon size)

APPROVED BACKGROUNDS

Mirza Cart	Mirza Cart	Mirza Cart	Mirza Cart
#F8F8FA	#FFFFFF	#F1F2F5	#352746

On the aubergine surface the tile turns white and the cart violet, with a white wordmark, as the storefront footer does. The mark works alone wherever space is tight (favicon, app icon). The store name in the lockup comes from the admin Settings, so a renamed store renames the logo.

COLOUR

RESPONSIVE

One store, every screen

Real captures at 1440 px, 820 px and 390 px. Each layout is the one the site serves at that width, not a scaled copy.

GUIDELINES

Do's and don'ts

Do

- Use the lockup exactly as supplied: cart mark left, name right.
- Keep violet (#5F42EC) for actions and selected states only.
- Set everything in Plus Jakarta Sans; SemiBold for headings.
- Show one product per square photo on a neutral backdrop.
- Say what happens: delivery cost, cash on delivery, no account.
- Use sale colours only for a real discount.

Don't

- Recolour, outline, stretch or rotate the logo.
- Put the violet tile on the aubergine surface (use the white tile there).
- Add a second accent colour or gradients on buttons.
- Mix in another typeface or use weights below 400.
- Use cluttered, filtered or branded product photos.
- Promise payment methods or features the store does not offer.
